

## JOSE FELIX RIOS MESINA

### Leader Power Platform & SharePoint & Copilot

+52 5540450707 | [felixbons@hotmail.com](mailto:felixbons@hotmail.com) | MC-ID: 13974600 |

**Nationality:** Mexican |

**Languages:** Spanish (Native), English (Advanced) | **GitHub:** [github.com/felixbons/PowerPlatform](https://github.com/felixbons/PowerPlatform) \*(currently under development)

### Professional Summary

Experienced Power Platform and SharePoint professional with over 10 years of experience delivering enterprise-grade solutions, including more than 6 years specializing in Power Platform and earlier experience developing .NET applications.

Currently serving as a technical lead, driving solution architecture, governance, and mentorship initiatives across development team. When I joined Trinity Industries in 2020, Power Platform adoption was minimal, with only two apps and limited user awareness. Through proof of concepts and hands-on delivery with some key projects, I established Power Platform as a core part of the company's digital ecosystem.

---

### Technical & Leadership Skills

**Power Platform:** Power Apps (Canvas & Model-Driven), Power Automate, Dataverse, Copilot Studio (Power Virtual Agents), Power BI, AI Builder, Power Pages

**SharePoint Online:** Administration, Governance, SPFx (React), Migrations, Modernization, InfoPath Replacement.

**Development:** C#, .NET, JavaScript, TypeScript, Power FX, HTML, CSS, SQL Server.

**Automation & Cloud:** Custom Connectors, API Integrations, SAP Connectors, PowerShell, Azure.

**Leadership & Delivery:** Technical Mentorship, ALM & Governance Frameworks, Solution Architecture, Agile.

---

### Professional Experience

#### Trinity Industries | Leader Power Platform & SharePoint | Feb 2020 – Present

- Lead the Power Platform and SharePoint team, overseeing solution design, delivery, and best practices across business units.
- Provide one-on-one mentorship and technical coaching, helping junior and mid-level developers achieve professional growth.
- Define and implement Power Platform governance, solution templates, and ALM pipelines to standardize delivery.
- Architect and develop Power Apps (Canvas and Model-Driven) with Dataverse, mobile/offline support, complex approval workflows, AI Builder Components and Copilot Agents.
- Build Power Automate flows for multi-system integrations, SAP data sync, and document workflows, API integrations, and others.

- Convert legacy InfoPath forms and workflows into modern Power Apps and Power Automate solutions.
- Deliver Power BI dashboards and data models for operational insights and executive reporting.
- Represent the IT team in strategic discussions to align business requirements with technical feasibility and scalability.

### **Key Achievements:**

Pioneered Power Platform adoption at Trinity, from initial proof-of-concept to enterprise-wide implementation, establishing governance, ALM, and reusable templates.

Acted as Power Platform ambassador through live solutions and training, inspiring leadership adoption and mentoring 4+ developers toward professional growth.

### **Tata Consultancy Services | SharePoint Consultant | Feb 2019 – Feb 2020**

- Supported SharePoint 2013 and Online environments, troubleshooting and implementing solutions for internal business applications.
- Worked on Azure implementation and integration tasks while managing incidents via ServiceNow.

### **Solser (Kellogg Project) | SharePoint Consultant | May 2018 – Feb 2019**

- Developed a centralized SharePoint solution integrating request tracking, stage-based notifications, and automated reporting.
- Streamlined workflows and merged multiple lists into unified structures, improving efficiency and traceability by 40%.

### **Centro Telecom | SharePoint Consultant | Oct 2016 – Apr 2018**

- Designed and implemented innovative solutions integrating Microsoft Graph and Skype for Business APIs.
- Contributed to modernization projects using Office 365, API-based integrations and PowerApps and Power Automate flows for internal communication systems.
- Led migration from SharePoint 2010 to 2013, coordinating with databases, infrastructure, and O365 teams.
- Developed SP add-ins for document control, approval workflows, and hybrid integrations with SharePoint Online.
- Built timer jobs and web services for corporate messaging and automation.

### **Abargon | .NET & SharePoint Developer | Oct 2013 – Oct 2016**

- Led a team of 4 developers (including offshore members) in delivering .NET and SharePoint 2013 solutions for multiple clients.
- Gathered requirements directly with clients, designed architectures, and managed delivery timelines.
- Developed custom web parts, master pages, and workflows for enterprise clients including Mitsui, Oro Negro, and Sociedad Hipotecaria Federal.
- Created SharePoint add-ins and WCF web services for user management and system integrations.

- Supported migrations from SharePoint 2010 to 2013 and implemented responsive UI enhancements.
- Designed, developed, and maintained .NET applications, providing support and enhancements for enterprise systems.

### **Freelance Projects | Power Platform Developer & SharePoint Consultant | *Occasional***

- Developed Power Platform projects focused on Power Apps with offline capabilities, Power Automate approval processes, and SAP integrations
- Designed and developed custom point-of-sale systems and business automation tools for small businesses.
- Delivered SharePoint intranet and website maintenance for clients including Royal Holiday, Finbe, and Arca Continental.
- Built a WCF-based web service for authentication and user management, improving system reliability and speed.
- Supported client requests for feature updates, troubleshooting, and new functionality implementation.

### **Ayuntamiento de Colima | IT Support & Junior Developer | *Oct 2010 – Sep 2012***

- Provided technical support to internal users and developed small internal tools for material and request tracking.
- Gained foundational experience in innovation and automation, setting the stage for future enterprise development roles.
